

*Guided by love.
Built through knowledge.
Sustained by hope.*

Ernest Chianumba Foundation

(Guided by love, cared for with grace, building lives)

Founding Vision & Structure

Country of Registration: Nigeria

Founder's Story, Why This Foundation Exists

I've seen too many people in Nigeria, good people, capable people, whose lives have been shaped more by what they lack than by what they carry inside them. I've watched bright minds dimmed by poverty, I've seen illness steal futures that medical care could have saved, and I've met young people hungry for just one opportunity to prove what they're capable of.

This Foundation grows from a simple conviction: that every person has inherent worth and potential, and that sometimes all it takes is someone who sees them, who cares enough to help. I've been blessed in my own journey, and I cannot turn away from those still waiting for their chance. This is not charity for charity's sake, this is about recognizing the image of God in every person and refusing to let circumstances define their ending.

The Ernest Chianumba Foundation exists because I believe Nigeria's greatest resource is her people, and too many of them are overlooked. We exist to change that, one life at a time.

1. Foundation Overview (Legal & Structural Identity)

The Ernest Chianumba Foundation is a nonprofit charitable foundation to be registered in Nigeria as an Incorporated Trustee under the Corporate Affairs Commission (CAC).

The Foundation is established as a service-driven organization committed to extending God's love to humanity through practical care, education, and community support. While faith-inspired, the Foundation's services will be inclusive, compassionate, and accessible to vulnerable individuals regardless of background. The Foundation is designed as an umbrella organization that can house multiple initiatives over time. Its flagship initiative is Abba's Haven, which represents the Foundation's long-term vision for holistic care and community development.

The Founder, **Ernest Chianumba**, will serve as a Trustee alongside other appointed Trustees, ensuring accountability, transparency, and collective governance.

Mission Statement

The mission of the Ernest Chianumba Foundation is to extend God's love to people who have been overlooked, underserved, or forgotten, by providing practical care, education, and support that restore dignity and build hope. Rooted in compassion and responsibility, the Foundation exists to meet real needs in real communities, starting in Nigeria.

Vision Statement

The Foundation envisions a Nigeria where vulnerable individuals are not abandoned to circumstance, but are supported with care, guided with wisdom, and empowered to live meaningful lives. We seek to build communities where love is expressed through action, and where people are given the opportunity not just to survive, but to grow and thrive.

Core Values

- Love in Action – We believe love is not a feeling but a decision expressed through service. Every program, every partnership, every interaction must reflect genuine care and respect for human dignity.
 - Compassion Without Condescension – We serve people, not problems. Those we support are not projects; they are individuals with stories, strengths, and agency. We walk alongside, not above.
 - Stewardship and Integrity – Every resource entrusted to this Foundation, whether money, time, or trust, is sacred. We operate with complete transparency, accountability, and a commitment to doing things right, not just doing things.
 - Faith Rooted, Arms Wide – Our motivation comes from our faith in God's love for all humanity. While we are unapologetically Christian in foundation, our doors, our care, and our support are open to everyone who needs help, regardless of background or belief.
 - Sustainability Over Spectacle – We are not interested in impressive launches that fade quickly. We are building something that lasts, programs that work, partnerships that endure, and impact that compounds over time.
-

2. Core Service Areas (Programmatic Focus)

The Foundation will operate around three core service areas.

A. **Education & Development:** This pillar focuses on long-term empowerment through learning and personal growth. Activities include:

- Scholarships and educational support
- Mentorship programs, Skill training and vocational development
- Faith-based and values-based education focused on character, purpose, and leadership

The aim is to equip individuals with knowledge, skills, and values that enable self-sufficiency and meaningful contribution to society.

B. **Care & Support:** This pillar focuses on restoring dignity and wellbeing through access to care. Activities include:

- Sponsoring medical care for vulnerable individuals
- Paying qualified professionals directly for approved services
- Partnering with clinics, doctors, counselors, and healthcare providers
- Providing structured support for individuals with urgent or ongoing care needs

Medical support may include consultations, treatment assistance, counseling, and referrals, delivered through partnerships rather than in-house facilities.

C. **Love in Action (Community Presence):** This pillar reflects the Foundation's commitment to visible, compassionate engagement within communities. Activities include:

- Outreach programs
- Emergency assistance
- Counseling and guidance

This area allows the Foundation to respond flexibly to real needs while maintaining accountability and structure.

3. Abba's Haven

Abba's Haven represents the heart of everything we do, not a physical location, but the experience of being held in care, guided with wisdom, and supported with grace. Every person we serve, every partnership we form, every initiative we launch is part of Abba's Haven. It is the Foundation's promise: that no one who comes to us will be turned away, overlooked, or abandoned. The Haven is wherever love meets need.

While Abba's Haven may eventually include a physical facility, the initiative will begin as a programmatic expression of the Foundation's mission, operating through partnerships, sponsored services, and community-based support. The name reflects the Foundation's guiding principle: *Guided by love, cared for with grace, building lives.*

4. Country of Registration

The Foundation will be registered and primarily operated in Nigeria. This decision is based on:

- The Founder's deep understanding of the Nigerian context
- Significant unmet needs in healthcare, education, and community support
- The opportunity to achieve meaningful impact at sustainable cost
- Cultural alignment with the Foundation's values and mission

Registering in Nigeria does not limit future international partnerships or expansion. Instead, it provides a grounded and credible starting point for impact.

5. Governance & Trustees

The Foundation will be governed by a Board of Trustees, including:

- The Founder
- A small number of trusted, credible individuals invited to serve as Trustees

Trustees will provide oversight, guidance, and accountability, ensuring the Foundation operates with integrity, transparency, and long-term sustainability.

A. **Role of Trustees:** Trustees of the Foundation are first and foremost:

- Stewards of the Foundation's mission, values, and long-term vision
 - Advisors providing guidance, wisdom, and oversight as the Foundation grows
 - Guardians of integrity, ensuring transparency, accountability, and ethical conduct in all activities
- Trustees are invited to contribute their insight and leadership to help shape the Foundation responsibly and sustainably.

B. **Board of Trustees:** The proposed Board of Trustees includes:

- Ernest Chianumba - Founder & Chairman
 - Sandra Ugochukwu - Secretary
 - Emmanuel Udoh
 - Mfon Cyril Akpan
 - Ebuka Okafor
-

6. Timeline & Implementation

- **2026 (Year One):** Focus on proper legal establishment and foundational structure. The priority is registering the Foundation with CAC, finalizing governance documents, and ensuring all legal and operational frameworks are in place. If resources and timing permit, the Foundation may conduct an initial outreach or pilot program to test processes and build momentum.
- **Long-Term Vision:** Once established, the Foundation will grow deliberately through the initiatives outlined in our core service areas—scholarships, medical support partnerships, skills training, mentorship, and community outreach. Growth will be guided by impact, not timelines. We will expand as we can serve well, not simply as we can serve more.

Closing Note

This document represents a proposal draft intended to share the vision, structure, and direction of the Ernest Chianumba Foundation. The Foundation is designed to start modestly, operate responsibly, and grow over time through collaboration and stewardship.
